

Energy Savings For My Small Business!

Saving energy and saving money for your small business is as easy as 1,2,3!

Save

money

energy

the
environment

1. **FREE on-site energy efficiency survey:** We will perform a **FREE** energy efficiency survey of your business that may show you how to spend less on the energy used for lighting, heating, and cooling.
2. **FREE energy saving upgrades** such as compact fluorescent lamps, low-flow aerators, and high-pressure rinse sprayers.
3. **More savings for additional upgrades** for which Willdan will pay up to 70% of the upfront costs. No waiting for rebates. Projects scheduled at your convenience can include:
 - a. High-efficiency lighting, ballasts, and fixtures
 - b. Heating, ventilation, and cooling system tune-up
 - c. Refrigeration upgrades, and more...

Sign up for your **FREE** on-site energy efficiency survey today. Con Edison business customers with a monthly, average peak demand less than 100 kW are eligible to participate.

Dear Con Edison Customer:

We are committed to offering you innovative and cost-effective solutions that will help your business use less energy, save money, and help the environment.

Con Edison's **small business energy efficiency program (Small Business Direct Installation Program)** provides a free on-site energy efficiency survey that will demonstrate how to spend less money on lighting, heating and cooling at your location. You will also receive free energy-saving upgrades and additional savings for upgrades that you select based on the free survey.

We hired **Willdan** to implement this energy-saving program for Con Edison small business customers with an average peak monthly demand that is less than 100kW. Willdan may contact you to perform the survey and give you the free upgrades, as well as install the additional upgrades that you select. Any agreements and contracts that you may enter into, or arrangements that you may make with Willdan, will be between you and Willdan.

Although you are not obligated to participate in this program, we encourage you to take advantage of this opportunity to save money, save energy, and help the environment. If you have any questions about this energy efficiency program, please contact Willdan directly at **1-888-WILLDAN** or visit **www.conEd.com/energyefficiency/businessdirect.asp**.

Working together, we can make your business and our communities more energy efficient.

Sincerely,

Rebecca A. Craft
Director, Energy Efficiency Programs
